

PORTOBELLO AMERICA. **UNLIMITED.**

## The environment in which we live is the essence of our business.

We believe that design is the competence that makes us unique and innovative, transforming the lives of people and manifesting itself in our products, environments and experiences with the brand.

Our business environment is global, but the design should reflect the local context.

Our culture, strategy and management should enable the creation and distribution of Portobello design, generating value for all audiences, through our integrated model and with indicated operating efficiency by profit.

El ambiente en el que vivimos es la esencia de nuestro negocio.

Creemos que el diseño es la competencia que nos hace únicos e innovadores, transforma la vida de las personas y se manifiesta en nuestros productos, entornos y experiencias con la marca.

Nuestro ambiente de negocios es global, pero el diseño debe reflejar el contexto local.

Nuestra cultura, estrategia y gestión deben viabilizar la creación y la distribución del diseño Portobello, generando valor para todos los públicos, a través de nuestro modelo integrado y con eficiencia operativa indicada por el lucro.

### Portobello

We are a design brand that creates and distributes contemporary products and services for individuals and companies that seek to make projects and dreams possible with originality, quality and at a fair price.

### La Portobello

Somos una marca de diseño que crea y distribuye productos y servicios contemporáneos de revestimiento para personas y empresas que buscan la viabilidad de proyectos y sueños con originalidad, calidad ya un precio justo.

### Innovation and Design

Competence that makes us unique and innovative.

We are aware of the trends and the year 2020 is a milestone for Portobello in innovation and design. We added artisan mastery to equipment and technology and the results are constant releases.

### Innovación y Diseño

Competencia que nos hace únicos e innovadores.

Estamos atentos a las tendencias y el año 2020 es un marco para Portobello en lo que se refiere a innovación y diseño. Sumamos maestría artesanal a equipos y tecnología de punta y el resultado son lanzamientos cada vez más constantes.

# Portobello

Portobello was founded in 1979, in the city of Tijucas, in Santa Catarina. The Company is the result of the entrepreneurial vision of its founder, who was unhappy that his homeland was only known for being a dormitory town. As a result, he made a commitment to build a company that would enable the growth and development of the region.

The ceramic activity, common at the site, was the starting point for a company focused on innovation and differentiation, already present in its essence. In 2015, the Portobello Group was established. Today there are two operations sites in Brazil: Portobello Tijucas (SC) and Pointer located at Marechal Deodoro (AL). This adds more than 40 Mi m<sup>2</sup> marketed through its two brands, Portobello and Pointer and in four distribution channels: Portobello Shop, Home Center, Projects and Exportation.

La empresa tuvo inicio con el surgimiento de su primera marca, Portobello, fundada en 1979 en el municipio de Tijucas, en Santa Catarina. Portobello es el resultado de la visión emprendedora de su fundador que, no conforme con el papel de ciudad-dormitorio de su tierra natal, se empeñó en construir una empresa que posibilitara el crecimiento y el desarrollo de la región.

La actividad cerámica, común en el lugar, fue el punto de partida para una empresa orientada a la innovación y a la diferenciación, ya contenidas en su esencia. Constituyendo en 2015 el Portobello Grupo, Portobello cuenta con dos operaciones en Brasil: Portobello Tijucas (SC) y Pointer Marechal Deodoro (AL), sumando más de 40 Mi m<sup>2</sup> comercializados a través de sus dos marcas, Portobello y Pointer y en cuatro canales de distribución: Portobello Shop, Home Center, Canal Proyectos y Exportación.

# Portobello America

Newly launched in 2018, Portobello America combines cutting-edge technology and logistics to create an unique offer of tailor-made for needs to the US market.

With an exclusive product portfolio, as well as a dedicated US factory and warehouse, Portobello America will settle a permanent base that attends new and former customers for many years ahead.

Lanzado recientemente en 2018, Portobello America combina tecnología y logística de vanguardia para crear una oferta única de necesidades específicas para el mercado estadounidense.

Con una cartera de productos exclusiva, así como una fábrica y un almacén dedicados en los EE. UU., Portobello America formará una base permanente que atiende a clientes nuevos y existentes durante muchos años.

# BERLINER.

Berliner is, literally, an origin description of whom has been born in the capital that transpires history, respects memories and prints movements towards the new, art, architecture and design.

Berlin created from the collective and plural vision about Berlin, this new surface reproduces the diversity expressed in the city. Berliner is a combination of natural stone and concrete interpreted in porcelain.

Berlin is a fusion of past and future. Of a certain rigidity with a cool hype spirit. From historic sceneries with contemporary art.

A pulsating culture expresses in multiple manifestations, which were transported to a multi-texture collection, colors that embrace and asymmetries in mosaics and surfaces.

Berliner is intended for the entire house, for all houses, all spirits. A collective creation to embrace the plural contemporary way of our time.

# CEMENT BLOCK.

A reinterpretation of the Color Block concept: full colors on a porcelain cement surface. Chromatic nuances and fragments of aggregates create Cement Block's identity. With more subtlety and smoothness, this new material brings the versatility of the cement and the refreshing air of pastel tones to the floor, or the wall, of the entire house.

The democratic 80x80 format reinforces a versatile personality to Cement Block.

# HARPA.

The hostile nature without trees, with many rocks, intense wind and low temperatures, was highlighted in the research. Architectural materials are mostly imported from the concrete. Aluminum is benefited in Iceland and is widely used in construction.

The color chart of the country has great influence of the environment and usually includes the color lead. Concrete and metal dyed of that color and the use of volcanic stones well represent this mood.

The result of all these perceptions is a porcelain concrete surface in the Fjord and Volcano colors, having as its main characteristic the movement of the tones, which represents the intensity of Icelandic nature. An expressive and equally intense surface that also reveres one of the country's major architecture works, the Harpa Concert Hall.

# NORD.

---

Orientalism, movement which influenced the arts in the early 19th century in Europe, was also a reference for Nordic design, which became a synthesis of beauty, simplicity and functionality.

The Nordics express minimalism in both architecture and design, creating a language without excesses, with a lot of personality and timeless in its essence. Various Nordic design furniture icons are as current today as they were in the 1950s.

The Nord Line revisits the essential path of minimalism, from the East to Scandinavia.

Nord is functional for internal and external areas, for the garden and the entire house.

# SUPER QUADRA.

The material of modern and contemporary architecture. This is how we can describe the concrete that, due to its versatility, expresses different nuances of architecture without losing the innovative mood. Concrete is always trendy and transits between different styles without being dated or looking vintage. It's the perfect companion for a mix of other surfaces and can be the protagonist in solo projects.

Superquadra was created from this concrete-free perspective. The superquadras of Brasilia and its conceptual ideal of not limiting spaces, creating continuous surfaces and with permeability of movement were the inspiration for the new Portobello concrete. The super format 120x120 translates the material versatility into porcelain tiles. Showcasing colors with personality to cover the entire space or it can be blended with wood, metal or marbles.

# MONT BLANC.

Mont Blanc is a sustainable proposal that reproduces an already classic white quartzite in porcelain slabs. The Mont Blanc surface reveals the stone formation in crossed layers, sometimes highlighting fragments of quartz in soft tones, sometimes compact white, and the result is a subtle quartzite, with veins that intersect in white tones and warm shades of gray.

# ROCCIA DI ROMA.

Roccia di Roma reproduces Roman Travertine, the most classic marble, that translates to the timeless beauty of the eternal city.

In Roccia di Roma we used the crosscut technique, which cuts the marble block in the opposite direction of the vein. A more daring and inspiring suggestion for classic or contemporary spaces.

# TIVOLI.

Tivoli combines the high durability of porcelain with the perfect reproduction of a classic Travertine from the Tivoli region in central Italy. Tivoli emulates natural stone that is indistinguishable to even the most discerning eye.

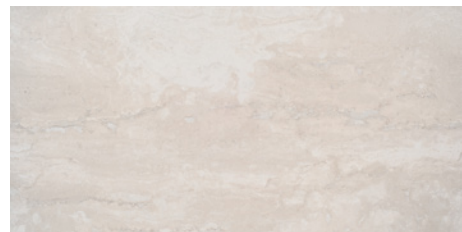

For this collection we used the vein cut technique, which cuts the block of marble in the direction of the material's vein. In four colors, Tivoli can be used in more elaborate or more minimalist spaces.

# STEEL.

A new color based on oxidized steel.

It was inspired by a chemical reaction generating steel, cut and mixed with other substances to make new chromatic scales possible. This is an innovative metallic surface concept. Porcelain tiles in a 60x120cm format for facades, volumes, and indoor ambients.

# 3D COLLECTION.

3D Collection experiments and surprises in proposals with different shapes, surfaces and of course, inspiring embossing patterns.

Tangram offers two textured surfaces but when pieced together, appear to multiply when randomly combined or following a pattern, transforming surfaces into focal points of the room.

Spot is a geometric proposal with two different embossing patterns for unique projects.

Memphis's embossing brings the same innovative spirit to decorate walls as its inspiration from the group of Italian architecture and design of equal name, founded in Milan in the 80's.

Madam has long and elegant shape, with curvaceous and graphic embossing in a rebellious composition.

And Arpege proposes creating different rhythms on wall surfaces from the variation of their embossing.

All can be applied vertically or horizontally and brings a surprising touch to interior decoration.

# COLOR MARKET.

Every inspiration has a color and creating an inspiring palette is the concept of Color Market. Color with essence, meaning, history and tailored for interior design.

The classic English brick is the basis of color. Surface molded by hand that has been exposed to weather over the centuries undergoes a transformation through painting.

Colors have gone through a transformation along the creative process. White colors gained polar shades, green shades translated landscapes and flavors, yellow shades are filled with personality and attitude, and much more to inspire you.

# KREA.

With a 10x40 and 7.5x15 format and an extensive color palette ranging from neutral to the most striking tones, Krea allows for combinations for all environments. From the subtlety of desaturated colors to illuminated tropical tones of green and blue, the coating combines with different materials and proposals. Smooth surfaces and relief options for coloring and decorating walls in all environments.

# LIVER POOL.

The history of rectangular wall tiles for wall coverings was employed in the 19th century in The Tube, the name of the underground subway in London.

This was the inspiration for the Liverpool line, in a very contemporary reinterpretation. Liverpool presents basic and neutral colors in glossy and matte finishes, with subtle embossments to update the original version of the wall coverings of the iconic underground subway station, Liverpool.

# PARIS+ JACKIE.

Rectangular tiles were created to cover the tunnels of the London subway, but it was in **Paris** in the first decades of the 20th century that, under the influence of Art Nouveau, it gained a bisoté finish.

The typical entrances of the first stations of Paris, made in iron and signaled with the word Metro in stylized calligraphy, are accompanied by the rectangular tiles and bisouched in the tunnels where the wagons stop.

Paris reproduces the pottery of the Parisian seasons in a current color chart that proposes to go through the collection of materials and textures of interior decoration. Composed of neutral tones, lightly heated, and more vibrant tones also with a hint of heat, connected with a warm and sophisticated mood.

**Jackie**, an eternal icon of good taste who has given a new perspective to fashion, art and culture in the vibrant 60s is the inspiration for a proposal for timeless and elegant wall decoration.

The subtle texture that reproduces a concrete surface with fine sand finish, is presented in a palette of pale colors, always contemporary, which integrates with the chromatic proposal of the whole Collection.

Two graphic patterns, in the long format 30x90, complement the solution and guarantee even more charm and grace to the decoration.

Jackie, the exact reference for the environment to stay up to date in the coming decades!

Adrock  
Belgique  
Ms. Barcelona  
St Martin

# ADROCK.

Adrock was idealized with the ambition of translating the thought of "less is more" into a design proposal that, from a fusion of materials such as limestone, cement and basalt, creates a striking but alluring matte surface.

The veins and elements of natural stones in this chromatic balance converges to something unique: A contemporary view of the layers of time.

# BELGIQUE.

The Pierre Bleue or Blue Stone is a stone of the limestones category typical of Belgium. This wonderful stone carries small fossils that stand out on its dark blue surface. Belgique is a daring design through a merger between Blue Stone and concrete. A material that does not exist in nature, which was created through design. This new material expresses the contemporary plurality and was interpreted in three shades, darker bluish gray, Avalon, a lighter gray that also occurs in nature, and Clair, an elegant off-white!

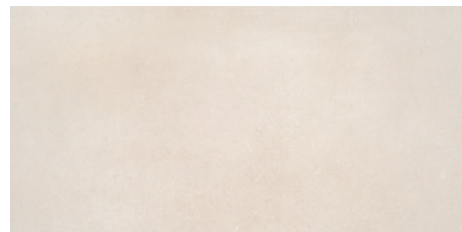

The matte and external versions allow the continuous use of the same material inside and outside the house. Belgique Décor is a graphic decoration in 90x90 format to customize both floors and walls. Mosaics made from small slats of the material increase the possibilities of decoration of the line.

# MS. BARCE LONA.

Mies van der Rohe, in addition to being one of the leading names of twentieth-century architecture in translating, in a daring, sophisticated and very innovative way, his minimalist austerity, also left some maxims such as "Less is More." The "less is more" may seem simplistic, but it is actually quite sophisticated and elaborate, it is the synthesis of simplicity from quite complex compositions.

One of his main works, the German Pavilion made for the world fair of Barcelona, is recognized by the fusion of diverse materials and architectural elements that express in a unique way the "less is more."

Ms. Barcelona was idealized with the ambition to translate the same thought into a design proposal that, from a fusion of materials like limestones, cements and basaltins, creates a striking but minimalist surface.

The multi-surfaces, with matt finish, with relief for external use, with the brilliance of the polish, plus the incisions creating textures carved in the material for use in walls, express the versatility of Ms. Barcelona.

# ST MARTIN.

St Martin is a soft interpretation of the most famous French limestone Pierre de Bourgogne. With a delicate surface and small fragments of fossils, St Martin's color pallet allows your mind to drift away with the sensation of the island's sandy beaches beneath your feet.

# ECO LLEC TION 48.

Ecollection 48 is our selection of planks 08x48 from the lines Ecodiversa + Ecollection.

Ecodiversa – Deep research on wood species made us prepare a beautiful collection derived from a wide variety of origins. Diving into this collection made beautiful blends emerge by mixing natural pieces and handmade woodwork, resulting in an extremely rich collection.

Ecollection – A rich and diverse selection of noble species of wood from around the world. Ecollection gives a contemporary mood to the material, with a range of both intense and gentle tones, bringing a sophisticated and cool proposal for your project.

# FOREST.

The Forest collection evokes the warmth of wood and comes in 8 colors to create a look that is both rustic and contemporary. The effect is particularly striking when the glazed porcelain is integrated into a natural interior.

# MADA GASCAR.

An immersion in the rainforests that led to Africa, more specifically the island of Madagascar. Amazing woods, reminiscent of Brazilian hardwoods, but with more contrast in the veins and color intensity, characteristics defined by the climatic variations, more rigorous in Africa than in Brazil.

Madagascar is a porcelain wood created from Paliandro boards, also known as Rosewood – a more intense version of the Brazilian Jacaranda.

Having a core that varies from light yellow to reddish brown and veins alternated by contrasting tones, forming almost graphic designs, it is a strong wood with strong personality.

In two versions, one clear in ivory tones and one darker in shades of reddish brown, Madagascar is the porcelain wood for the whole house.

Textil

# TRILLO.

Dating back before the 16th Century, music has always been a timeless past time of Italy. From the storytelling of the lyrics, emotions portrayed through instruments, and even focusing on the closest details of the rich vibrato tones and decorative trillo effects.

The pattern and visual markings on the Trillo Collection pieces represent the consistent iteration of details throughout the space. Adding a slight visual appeal to the glossy look on the lines, decorative is an understatement - Trillo is a necessity.
