FILO.
Glazed Porcelain

The classic travertine, an Italian material found in great works of architecture, is reinterpreted on a new surface. A set of veins, which touch one another and get apart, make up a linear geometry that is far from obvious and updates what nature has shown for thousands of years.

There are four colors in the palette: Bianco and Beige are the most neutral, Greige brings coziness and sophistication in warmer nuances, and Gamma reveals a mix of tones for exclusive projects.

Filo, unique surfaces for projects full of poetry.
